

COVID-19 ENTRY REQUIREMENTS

In light of the unprecedented global emergency caused by the COVID-19 virus, we wanted to share some **important information** with you about the steps we are taking to support you and our staff during this time. The steps outlined below have been thoughtfully implemented to enable our business to run as usual and to give you access to our products - as we understand that your business depends on it.

PROOF OF COVID-19 VACCINATION

As of Monday, 14 February 2022, all visitors (customers & contractors aged 16 years or older) will be required in addition to signing in the SAFE WA QR code, to provide proof of COVID-19 vaccination (POV), or an approved medical exemption when entering the showroom.

The following are acceptable forms of proof under WA Government guidelines:

- the Service WA app vaccination certificate.
- the Express Plus Medicare mobile app.
- a COVID-19 digital certificate with an acceptable form of ID; or
- an Immunization History Statement, with an acceptable form of ID.
- if they are medically exempt - an AIR Immunization Medical Exemption Form will need to be produced with an acceptable form of ID.

TEMPERATURE TESTING

We are implementing immediately that all staff, contractors and visitors must be temperature tested PRIOR to entering the office, showroom or warehouse for the first time in that day. An acceptable temperature for entry is 37.3 degrees or lower.
